| TOTAL | 2,307 | SQFT |

TYPICAL FLOOR PLAN - LEVEL 4

Small dimensions are measured to the exterior boundaries of the exterior walls, and the perimeter of interior dividing walls and to face (not to center) for the dimensions that would be determined by using the description and definition of the "Live" and "Net" in the Declaration which generally only includes the interior spaces between the perimeter walls, measuring from interior wall plane to interior wall plane and excluding interior structural components. For your reference, the square footage area of the Unit, determined in accordance with those unit boundaries as defined in the Declaration, lists that measurements, if using net (not to face) live area and generally taken at the greatest points of each given room (not the room area) a perfect rectangular, without regard for any cutouts. Accordingly, the area of the great room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction. All floor plans and development plans are subject to change without notice. The furnishings and items depicted are not necessarily included with the purchase of your Unit and a green fee purchase and purchase agreement to determine what is included with your Unit purchase. If anything.
