### TYPICAL FLOOR PLAN - LEVEL 34

Exact dimensions are measured to the exterior finish of the exterior walls and the centerline of exterior opening walls and in fact vary from the dimensions that would be determined by using the description and definition of this "UNIT" set forth in the Declaration which generally only includes the interior enclosed volume. The perimeter walls measuring from interior wall plate to interior wall plate and include interior structural components. For your reference, the square footage area of the Unit, determined in accordance with those rules described as defined in the Declaration. Note that measurements of square set forth on this floor plan are generally taken at the greatest points of each given room as if the room were a perfect rectangle without regard for any columns. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction. All floor plans and development plans are subject to change without notice. The Commission will utilize the area shown is not necessarily included with the purchase of your Unit and is shown for purposes of illustration only. Consult your prospectus and Purchase Agreement to determine what is included with your Unit purchase, if any.
